

## CALVERT LAW FIRM

### The Client's Best Interest Has Always Been Our Mission.

THE CALVERT LAW FIRM REPRESENTS A group of experienced attorneys who treat the clients' interests as their own. The firm's attorneys understand that even the best legal answer is wrong if it does not fit the client's needs or objectives. "We genuinely enjoy working for our clients," says the firm's founder Randall Calvert. "That's one reason why we prefer contingency-fee arrangements. Our goal is to ensure that the value of our services is always greater than our fee."

#### **TRUSTED BUSINESS ADVISERS, EXPERIENCED LITIGATORS**

The firm's attorneys are pleased that their clients rely on them for their financial, business and legal needs. Clients range from local and regional businesses to Fortune 500 companies. Calvert attorneys have extensive experience litigating complex matters in all areas including securities disputes, taxation, oil and gas, business disputes, bad faith, fraud, financial crimes, tax fraud, products liability and professional negligence. "Our focus in litigation is unique in that we focus on helping businesses and individuals with complex commercial and financial problems," says Calvert. "For example, we won a \$66 million verdict against Shell Oil Company last year for their failure to pay royalties to our clients."

#### **M & A EXPERTS**

The firm's attorneys possess a background in finance that, combined with the experience of handling hundreds of mergers and acquisitions, can assist during the planning and negotiating of all mergers, acquisitions and divestitures. Those services include evaluation, letter of intent, disposition, negotiation and due diligence to the closing of the transaction.

#### **AN EXPERIENCED BUSINESS OWNER NAMED TO 2009 OKLAHOMA SUPER LAWYERS®**

Since Calvert began his practice in 1990, his experiences as a certified public accountant and entrepreneur have heavily influenced its direction. He brings an innovative approach to complex business and legal problems. Calvert has received the highest rating afforded by Martindale-Hubbell® (AV), and is recognized by his peers as one of the pre-eminent attorneys in the United States. A former chairman of the Oklahoma Horse Racing Commission, he was actively involved in the implementation of regulations for casino-style gaming at Oklahoma's horse racing venues.

RANDALL K. CALVERT

"At Calvert we dedicate ourselves to providing outstanding legal and business advice, tailored to our clients' needs," says Calvert.
